PROFILE

I turn complex, high-stakes information into decisions people can act on — a skill forged in three unlikely arenas. As a U.S. Army Cryptologic Language Analyst, I held a TS-SCI clearance and worked in Arabic to convert raw signal into intelligence that commanders staked outcomes on. As a conservatory-trained musician and educator, I learned to teach hard ideas simply and to lead an ensemble toward a shared sound. Today, as a Site Integrated Planner at Procter & Gamble, I apply that same pattern-recognition and systems thinking to keep a Fortune-100 operation moving from SAP transaction to the shelf. My unfair advantage is the combination: a linguist's ear, an analyst's rigor, an educator's clarity, and a planner's discipline — pointed at whatever problem needs solving. I'm looking for work that needs someone who learns fast, sees the whole board, and makes the people around him better.

CORE COMPETENCIES

- | | | |
|---|---|---|
| • Data analysis & visualization (SQL, Power BI, ArcGIS) | • Supply-chain & integrated production planning | • Translating complex information for decision-makers |
| • Arabic linguistics & cross-cultural communication | • Teaching, training & curriculum development | • Team leadership under pressure |
| • Process & workflow optimization | • Rapid learning & adaptability | • Briefing & presentation to senior stakeholders |

PROFESSIONAL EXPERIENCE

Procter & Gamble — Site Integrated Planner/Master Data Coordinator

January 2023 – Present

Coordinate integrated planning at a Procter & Gamble manufacturing site, keeping production aligned with demand across cross-functional teams.

- Planned and scheduled Prilosec raw/pack materials and finished products across 1 line and 7 SKUs
- Bridged the gap between IOL and SIP teamwork that was resulting in critical errors cross functionally
- Built the work process documents, dashboards, and common use practices around master data creation at the Greensboro Plant.
- Supported equity and inclusion efforts through arts-based employee engagement, including co-directing the GO Choir and performing as an oboist in the P&G Concert Band to help build community and connection across the site.

U.S. Army — Cryptologic (Cognitive) Language Analyst / SIGINT Operator

May 2018 – May 2023

Held a TS-SCI clearance and worked in Arabic to collect, analyze, and report tactical and strategic signals intelligence that informed command decisions. Promoted early three times in two years for leadership and initiative, and repeatedly entrusted with responsibilities above pay grade.

- Graduated top five (3rd of 30) in a Defense Language Institute Arabic program with a ~75% historical attrition rate; recognized by the garrison colonel for the achievement.
- Earned a TS-SCI / SSBI single-scope clearance following a polygraph; maintained OPSEC and information assurance throughout service.
- Designated SIGINT / TACSIG resident expert; trained and mentored 30–100 soldiers across field exercises in five states, improving collection efficiency and team communication.
- Supported stateside intelligence efforts contributing to the European theater / Ukraine support mission after returning from advanced training.

- Led SIGINT operations teams and served as squad leader; covered down on senior-leadership gaps to sustain unit cohesion and operational tempo.

EDUCATION

University of Cincinnati — College-Conservatory of Music

Aug 2016 – May 2018

Music Education & Oboe Performance, Cincinnati, OH. (*paused to pursue military service*)

Defense Language Institute Foreign Language Center — Middle Eastern School

Aug 2018 – Dec 2019

Levantine / Modern Standard Arabic (Intermediate). Reading, writing, listening, and speaking proficiency.

TECHNICAL SKILLS & LANGUAGES

Analytics & Tools: SQL • Power BI • ArcGIS • Azure • PowerShell • Linux (Ubuntu) • Microsoft Office Suite • Adobe Acrobat • Cellebrite • Metadata analysis • Google Earth

Languages: Arabic — MSA plus Levantine, Iraqi, Egyptian, Yemeni & Sudanese dialects (reading, writing, listening, speaking). English (native).

Clearance: TS-SCI TK / SSBI (single-scope - expired upon ETS; eligible for reinstatement.)

LEADERSHIP & RECOGNITION

- Three early-promotion waivers in two years for leadership, initiative, and academic performance.
- TACSIG (Tactical SIGINT) Resident Expert — 2022–2023.
- Command-Team SIGINT Senior Specialist for lower-enlisted analysts — 2022–2023.
- TACSIG FTX Squad Leader (2022–2023) • SIGINT Operations Team Leader (2021–2022) • Arabic Squad Leader (2018–2019).
- MAT-V Driver's Ed Assistant Instructor — 2020–2023.

INTERESTS

Vocal performance & choral direction • music composition (skele.t0l) • linguistics & writing systems • esoteric studies • building personal productivity systems that bridge digital and analog tools.
